Welcome to all the new study participants!
Congratulations to all of the study participants who have completed the intervention, the 12 and/or 24-week follow-up evaluations!

Tai Chi Exercise for Stroke Survivors Newsletter

Welcome to Our New Research Team Member, Christine Hansen!

Christine is a bachelor’s prepared Registered Nurse and is currently a Doctoral Student in the College of Nursing. Christine brings over 20 years of nursing experience in addition to her graduate research studies. Her research interest is in complementary and integrative therapies. She will be working with a large portion of the data from this study, as well as doing screening and all of the 12-week and 24-week study assessments.

N.B. Please do NOT tell her which group you are in!

Exercise Helps Decrease the Risk of a Fall!

Here is an exercise for you to try at home (suitable for all stroke survivors):

Seated Marches: While seated upright in a chair, slowly raise your thigh off the chair while keeping your knee bent. Alternate with the other leg. This exercise strengthens the hip flexors which assist in swinging your leg forward as you walk. This exercise may be progressed to marching while standing, with or without using upper-body support.

Tai Chi Study in the NEWS!

Dr. Ruth Taylor-Piliae spoke with Family Life Radio on May 11th, about her research using Tai Chi exercise for Stroke Survivors. During the interview, she emphasized differences between Eastern vs. Western exercise and explained potential benefits of Tai Chi.

Transportation Problems?
Did you know that the Americans with Disabilities Act enables you to have free transportation? With a serious and limiting disability, such as a stroke, you may apply for transportation with the ADA and receive a registration card for options such as Handi-car within 1 to 3 weeks.

Places to call:
ADA - Transportation Department: (520) 791-5409
Handi-car: (520) 881-3391
Vantran: (520) 791-4371

“Quotable Quotes”
“Never Say You Can't.” (study participant)
“Tai Chi has made a significant contribution to my recovery.” (study participant)

American Stroke Association
The American Stroke Association focuses on reducing disability and death from stroke through research, education, fund raising and advocacy. The American Heart Association created the American Stroke Association as a division after many years of increasing emphasis on stroke. For more information visit: http://www.americanheart.org/presenter.jhtml?identifier=4464

“Tai Chi has made a significant contribution to my recovery.” (study participant)

Study Locations Based on Group Assigned Starting August 2010
Study participants are randomized and assigned specific groups and locations for the interventions. See below for details:

Northwest Locations:
HealthSouth, NWH
1921 W. Hospital Drive
Tucson, AZ 85704
520-544-5292
or
Profitness and Health
1290 W. Prince Road
Tucson, AZ 85705
520-495-4987

Central/East Locations:
HealthSouth RIT
2650 N. Wyatt Drive
Tucson AZ 85712
520-325-1300
or
Fit Center
5555 E. 5th Street
Tucson, AZ 85711
520-571-7000 ext 101
